

WEBINARS

Series Announcement

Rehabilitation professionals are regularly tasked with not only healing and preventing workforce injuries, but also helping to decrease workers' compensation costs.

Through Select Medical's WorkStrategies Program, our accomplished workers' compensation rehabilitation professionals invite you to attend a CEU-approved complimentary webinar series beginning **Friday, November 18, 2011**.

November 18, 1:00 pm EST: Obesity in Rehabilitation : [Register](#)

December 7, 2:00 pm EST: Implications of an Aging Workforce : [Register](#)

January 4, 2:00 pm EST: Value in Rehabilitation : [Register](#)

Space is limited, register today!

If registration space is filled upon your first attempt, and you would like to view a recorded archive of this series or any single session, please contact aridall@selectmedical.com.

GUEST SPEAKERS

Jamie Stark, PhD, CSCS, is the National Director of Outcomes for the Outpatient Division of Select Medical. The Outpatient Division operates more than 950 outpatient physical therapy clinics in 34 states and the District of Columbia. Dr. Stark is also the National Director of Outcomes for the Specialty Network Division of Select Medical, SPNet. Dr. Stark has published/presented outcomes data through multiple professional organizations and received coverage in the popular media for this work. Dr. Stark is also a member of the ACOEM Evidence-Based Practice Panel.

David Hoyle, P.T., M.A., OCS, MTC, CEA has more than two decades of experience working with people with musculoskeletal dysfunction from acute injuries to the performance of functional capacity evaluations and the development of work conditioning/work hardening programs. David has been recognized as an Orthopedic Clinical Specialist by the American Board of Physical Therapy Specialists since 1996 and has been published in several

physical therapy journals.

Michael Inoshita, M.S., P.T., is a Physical Therapist and Center Manager at NovaCare Rehabilitation's Elmhurst center. His clinical specialties are the treatment of the spine, industrial rehabilitation, knee/shoulder injuries, vestibular rehabilitation, foot conditions and biomechanical analysis.

Note: Flash and Java must be installed to view the webinar. If you are unable to view the webinar, contact medthomas@selectmedical.com for a link to the recorded webinar.
