WITH A SMALL MOVE, BIG IMPROVEMENTS FOR SELECT PHYSICAL THERAPY'S
OWASSO PHYSICAL THERAPY CENTER

OWASSO, OK – Select Physical Therapy, one of the nation’s largest providers of outpatient physical therapy, announced that its Owasso location has relocated as part of a sustained effort around continuous improvement and enhanced patient experience. The center is now located at 12910 East 86th Street North.

The new location offers a comprehensive range of physical rehabilitation services, including (but not limited to): orthopedic rehabilitation, sports medicine, vestibular rehabilitation and ASTYM (a treatment device to help rejuvenate muscles, tendons and ligaments). The Owasso location is under the leadership of center manager Lisa Geissler, PTA, who has more than 21 years of experience. Physical therapist Donna O’Neil, DPT, has more than six years of experience. The patient service specialist who greets patients, handles scheduling and insurance, is Rebecca Vaughn.

“We moved less than a mile away, but the new location’s positive impact on our patients will go a long way to improve the treatment experience with us,” said market manager Merle Basquez, P.T. “The new location will have appointment availability as early as 6:00 a.m., better access to equipment, and a much brighter, open environment for patient activity.”

The Owasso clinic moved from 12701 D East 86 Street North. Select Physical Therapy operates 21 outpatient centers throughout Oklahoma. For more information, visit: selectphysicaltherapy.com/markets/oklahoma.aspx.

About Select Medical
Select Medical is one of the nation’s largest providers of specialized acute care and post-acute care, operating more than 120 specialized hospitals nationwide including, Baylor Institute for Rehabilitation, Great Lakes Specialty Hospital, Kessler Institute for Rehabilitation, Penn State Hershey Rehabilitation Hospital, Regency Hospitals, Select Specialty Hospitals, SSM Rehabilitation Hospital and West Gables Rehabilitation Hospital, as well as nearly 1,000 outpatient clinics operating as First Choice Rehabilitation Specialists, Kentucky Orthopedic Rehab Team (KORT), Kessler Rehabilitation Centers, NovaCare Rehabilitation, Saco Bay Physical Therapy, and Select Physical Therapy.
